

Orbis

Health, Safety & Wellbeing Policy

Category	Benefits
Policy Owner	Human Resources & Facilities
Effective Date	January 1, 2026
Next Review Date	January 1, 2028
Applies To	All employees, contractors and visitors at Orbis locations

1. Purpose

Orbis is responsible for the health and safety of everyone at its premises, and supports the wellbeing of its employees wherever they work. This Policy explains what to do in an emergency, what support is available, and what is expected of employees.

2. In an Emergency

Situation	What to do
Medical emergency	Call the site emergency number displayed at every entrance, then the local ambulance service (108). Inform HR the same day.
Fire	Raise the alarm, leave by the nearest marked exit, and assemble at the designated point. Do not use lifts.
Accident or injury	Report to a first aider and to your manager immediately; record it in the accident register within 24 hours.
Feeling unwell at work	Inform your manager and go home or to a doctor. Sick Leave applies as set out in the Leave and Time-Off Policy.

Trained first aiders and fire wardens are identified on notices at each floor. First-aid boxes are located in every pantry and at reception. Evacuation drills are held twice a year and attendance is mandatory.

3. Medical Cover

All full-time employees are covered by Group Medical Insurance of INR 5,00,000 per family, Group Personal Accident Insurance of three times annual CTC, and Group Term Life Insurance of five times annual CTC, as detailed in the Compensation and Benefits Policy. Cards and the insurer's helpline number are issued within 30 days of joining. Claims are made directly with the insurer; HR assists where a claim is disputed.

One comprehensive annual health check-up is fully reimbursed for every employee.

4. Mental Health and Wellbeing

- **Employee Assistance Programme:** free, confidential counselling for employees and their immediate family, available 24 hours a day. Orbis receives no information about who uses it or why.
- **Wellbeing leave:** Sick Leave may be taken for mental health without any requirement to disclose the reason.
- **Workload:** managers are expected to monitor sustained overtime and to act on it; persistent overwork is a management issue, not an individual one.

5. Workplace Safety Obligations

Employees must follow safety signage, keep walkways and fire exits clear, report hazards to Facilities as soon as they are noticed, and not tamper with safety equipment. Visitors must be signed in and accompanied.

6. Working Safely Away from the Office

Employees working from home are responsible for a safe workspace: adequate lighting, a suitable chair and desk, and cables kept clear of walkways. The work-from-home setup allowance described in the Remote and Hybrid Work Policy may be used for ergonomic equipment. Injuries occurring while working remotely must be reported to HR on the day they occur.

7. Infectious Illness

Employees with a fever or an infectious illness should not attend the office. Where the role permits, they may work remotely; otherwise Sick Leave applies. No medical certificate is required for absences of two days or fewer.

8. Substance Use

Attending work under the influence of alcohol or illegal drugs is prohibited and is treated under the Code of Conduct. Employees seeking help for substance dependence may approach HR or the Employee Assistance Programme in confidence; doing so voluntarily will not itself lead to disciplinary action.
